PUBLIC HEARING/BUSINESS

1. Transportation CFP Amendment - [6:30 PM](#)

Claire Lust, Community Development Director provided a summary for The Ridgefield Transportation Capital Facilities Plan (CFP) being an element of the Ridgefield Urban Areas Comprehensive Plan (RUACP) that may be amended on an annual basis. The Ridgefield Transportation CFP was last updated in 2018. The proposed 2020 revisions will be minor update to the 2018 CFP, and include extensions of two proposed roads and reclassification of two other roads to support development patterns that have emerged since the last plan was created. Claire Lust then introduced Bryan Kast, Public Works Director to provide a more detailed summary of the amendments.

Bryan Kast, Public Works Director summarized the proposed updates to the City's 2018 Capital Facilities Plan, which laid out the future roadway network within the City for Collector and Arterial roadways. As development proposals have come forward minor updates to the roadway network have

become necessary to mesh with the transportation needs of the community. The 2020 update will extend a collector roadway that in the 2018 plan begins south of Pioneer Street off S Royle Road and extends west through the Pioneer Village Development to the Acero Apartment Complex. This extension will allow traffic to better circulate between these two projects as well as east to Discovery Ridge and future development south of Pioneer. The future collector roadway N 56th Avenue will also be extended north through to N 10th Street. In the 2018 plan this future roadway does not extend north past N 5th Street. East of I-5, Dolan Road will have its collector designation removed, as preliminary design of the S 10th Street overpass shows that Dolan Road will not be able to connect to S 10th Street due to grade. S 5th Street will have a collector classification added between S 65th Avenue and Union Ridge Parkway to allow traffic to access S 10th Street and the future overpass.

Discussion occurred on the reasoning behind removing 65th as a collector in 2018.

2. Fandell Comprehensive Plan Amendment and Zone Change Request - [6:43 PM](#)

Claire Lust, Community Development Director summarized and provided a presentation on the Fandell Comprehensive Plan Amendment and zone change application. She noted that on July 1, 2020, the City received a comprehensive plan amendment and zone change application for the Fandell property on N 50th Place (PIN 213991000). The proposal is to change the comprehensive plan designation from Urban Medium (UM) to Urban Low (UL) and concurrently to change the zoning designation from Residential Medium Density 16 (RMD-16) to Residential Low Density 8 (RLD-8). Comprehensive plan amendments submitted between January 1 and July 1 are brought before Planning Commission and City Council at the end of the same year, and if approved go into effect January 1 of the following year.

Jeff Fandell, property owner and applicant for the proposal, summarized the history of this parcel and explained why they are asking for a lower density on this property, explaining some of the constraints of development as currently zoned.

Marty Snell, McCay & Sposito, 1325 SE Tech Center Drive Suite #140, Vancouver, WA 98683, representative for the property owner, stated that he addressed in the submittal items how it meets the Comprehensive Plans Housing and Land Use Goals and Policies and some of the constraints on how it is currently zoned.

Public Hearing opened at 6:57 pm.

No Testimony given.

Public Hearing closed at 6:58 pm.

Discussion occurred on the future development of 50th, which is currently a private single lane road. Bryan Kast, Public Works Director indicated that when development occurs on that road that warrants road improvements, it would then become a public road and be improved to current standards.

Commissioner Okinaka moved, seconded by Judy Chipman, to recommend approval of the Fandell Comprehensive Plan and Zone Change request to City Council.

Ayes: All. Motion passed unanimously.

RESULT:	ADOPTED [UNANIMOUS]

3. Bird & Temme Comprehensive Plan Amendment and Zone Change Request - [7:03 PM](#)

Claire Lust, Community Development Director, summarized and provided a presentation on the Bird & Temme comprehensive Plan Amendment and Zone Change Application received on June 30th, 2020. The properties involved are at 1296 and 1446 S Dolan Road and the proposal is to change the comprehensive plan designation from Employment (EM) to Urban Low (UL) and concurrently change the zoning designation from Employment (E) to Residential Low Density 6 (RLD-6). Comprehensive plan amendments submitted between January 1 and July 1 are brought before Planning Commission and City Council at the end of the same year, and if approved go into effect January 1 of the following year.

Kess Romano, applicant for the proposal questioned the density allowed under this current zone change and wanted to know the process to potentially have a higher density. Claire advised that the process to increase the density up to RLD-8 would be through a zone change and a separate comprehensive plan amendment would not be needed.

Public Hearing opened at 7:15pm.

No testimony was given.

Public Hearing closed at 7:15pm.

Discussion regarding the current and future classification and traffic flow on Dolan Road.

Judy Chipman moved, seconded by Paul Young to approve this request and send it forward to the City Council. Ayes: All. Motion passed unanimously.
